Scan/US Business 2025

A comprehensive geographic summary database of U.S. business and employee counts

Scan/US Business 2025

Scan/US Business 2025 presents geographic summaries of data from a comprehensive, industry-standard business list of over thirteen million establishments covering one hundred and fifty eight million employees. Establishment and employment data are classified by standard industry categories (SIC and NAICS), establishment size, a custom business type with focus on land-use, and employee occupation. Summaries are available for all standard levels of geography, including US, states, MSAs, places, counties, county subdivisions, Zip codes, census tracts, block groups and Scan/US microgrids. Users of the Scan/US application can easily obtain custom summaries for user-defined polygonal areas, ring and drive time areas and any arbitrary groupings of standard geography. The data are current as of January 2025.

Data sources and methodology

Primary source for the summary database is the InfoGroup (formerly InfoUSA) business-list data base. This list is compiled from multiple sources such as business white pages and Yellow Pages, annual and 10K SEC filings, and government and USPS data, and continuously maintained through annual telephone verification of data for each business in the database. Data for each business establishment include its physical location, actual reported (or in some cases estimated) number of employees, and multiple codes detailing its industrial, franchising and administrative/subsidiary classification. Branch locations of multiple-location firms are distinguished from their headquarters, both national and regional.

Using the Scan/US Geocoder, virtually all source database records with physical addresses were geocoded at the address level and these records then participate in summaries on all levels. About 5.3% of the establishments are addressed to post office boxes in multi-coded city Zip codes; these could be geolocated down to the Zip and county levels only.

Scan/US estimated the distribution of employees by occupation for each summary area. The occupation categories correspond to the occupation breakdown reported in the 2020 Census. Employees of individual establishments were assigned to the several occupation categories using a localized industry-to-occupation matrix. For each of 20 summary industries, the matrix used presents the proportion of total employment accounted for by each of 24 occupation categories. To account for regional differences, individual matrices were developed for each of the 179 Bureau of Economic Analysis economic areas, county aggregates of economically-related counties. A national matrix was derived from the 2019 5-year American Community Survey public use microdata sample and, for each economic area, recalibrated to match 2019 1-year American Community Survey occupation distribution and current business database industry counts.

Summary data available

Data available on all levels of geography include (number of items indicated in parentheses):

- Totals Counts of establishments and employees (2)
Counts of administrative establishments and employees (2)
- Employeesize Establishments by number of employees (9)
Establishments with 20+employees by industry (SIC and NAICS) (74, 104)
- Industry Establishments by SIC industry (74)
Employment by SIC industry (74)
Establishments by NAICS industry (104)
Employment by NAICS industry (104)
- Occupation Employment by occupation (24)
- Business type Establishments by business type (38)
Employment by business type (38)
- Retail Establishments by retail category (68)
Employment by retail category (68)

Establishment size by number of employees

Employee size of establishments is recorded in the source database as an actual count of employees and as an assignment to an employee size range category (e.g., 5 to 10 employees). In a substantial number of cases the “actual” number of employees was obtained as a result of the annual telephone follow-up. In remaining cases the number was modeled using detailed industry-specific average employment size rates reported in the US Census County Business Patterns, adjusted to agree with major industry averages at the county level.

The establishment employee size estimates do not distinguish between full-time and part-time employment. Underreported in the database are agricultural and public sector establishments and employment, largely reflecting the obtainable sources for the businesslist and its focus on private sector businesses. Often the employment for an entire jurisdiction is reported at the location of the public agency headquarters. Establishments with over 10000employees were screened and their employment counts in some cases revised after comparison against independent sources.

Counts by employee size are reported in 9 categories:

- 1–4employees
- 5–9employees
- 10 – 19 employees
- 20 – 49 employees
- 50 – 99 employees
- 100 – 249 employees
- 250 – 499 employees
- 500 – 999 employees
- 1000+employees

Establishments with twenty or more employees are additionally summarized for each SIC and NAICS industry.

Industry

Establishments and employment are summarized both by the 2022 NAICS code and by SIC code. The NAICS (North American Industrial Classification System) coding scheme became in 1997 the national standard for identifying a firm's primary business activity, replacing the SIC (Standard Industrial Classification) coding system used over several decades for reporting economic statistics. NAICS was designed to more accurately reflect the changing industrial composition of US economy: the shift from manufacturing to a service-based economy, emergence of information and hi-tech industries and of large-scale retailing.

Previous editions of the business database were limited to industry summary by SIC only. Legacy SIC codes continue to be used for various purposes by agencies in some states and by business. In the source business list itself, the native industry coding employs multiple 6-digit SIC codes to describe the various facets of a firm's business.

NAICS classification

Establishments and employment counts are reported for 104 NAICS industries. These consolidate the 1057 individual industry codes at varying levels of detail. Retail trade is summarized here at the 3-digit sub sector level; an expanded list of 68 retail trade and service categories is presented separately, see below. The industries are grouped into 20 NAICS sectors in the list following (codes defining the industry categories appear with each title in parentheses).

Establishments SIC-coded "Agricultural Services (07)" have been reclassified in the source database into various NAICS industries, resulting in an empty NAICS "Agricultural Services (115)" category in the present edition.

SIC classification

Establishments are classified into 74 categories by SIC code. These are summary categories mostly at the 2-digit major industry level, although some further detail is broken out in retail and retail services.

Establishments that could not be classified are relatively few, involving about 2% of the total and a negligible amount of employment.

The following lists the SIC categories used (codes making up the categories are in parentheses):

Agriculture/forestry/fishing

1 Agriculture, forestry, fishing (01-2,08-9)
 2 Agricultural services (07)

Occupation

Occupational breakdown of an area's employment is summarized in 24 categories. This classification corresponds to the standard way the Census Bureau reports occupation, for example in the American Community Survey table C24010. It supersedes the categories used in previous editions of the database which focused on the now obsolete distinction between white and blue collar occupations: these are no longer included.

Specific occupations making up the summary categories are listed in detail in Appendix A.

The occupation categories are as follows:

Management and professions

1 Management
 2 Business and financial operations
 3 Computer and mathematical
 4 Architecture and engineering
 5 Life, physical, and social science
 6 Community and social service
 7 Legal
 8 Education, training, and library
 9 Arts, design, entertainment, sports, and media
 10 Health diagnosing and treating practitioners
 11 Health technologists and technicians

Service occupations

12 Healthcare support
 13 Protective service
 14 Food preparation and serving
 15 Building and grounds maintenance
 16 Personal care and service

Sales and office occupations

17 Sales
 18 Office and administrative support

Natural resources, construction, maintenance

19 Farming, fishing, and forestry
 20 Construction and extraction
 21 Installation, maintenance, and repair

Production, transport, material moving

22 Production
 23 Transportation
 24 Material moving

Business Type

An industry classification scheme such as NAICS groups establishments based on the similarity of production processes they use, without regard to their land use or siting preference. The business type classification uses detailed SIC codes to group establishments according to their most likely siting in an industrial, manufacturing, commercial or office setting. A crossreference table will be made available upon request.

Categories below whose titles contain terms “small firms”, “small module” or “small office” break out establishments with under 10 employees.

Business commonly sited on industrial land

- 01 Mining
- 02 Construction
- 03 Construction, small firms
- 04 Technological activities & research
- 05 Transportation
- 06 Wholesale trade –industrial
- 07 Warehousing
- 08 General industrial

Manufacturing

- 09 Heavy manufacturing
- 10 General manufacturing
- 11 Light manufacturing
- 12 Manufacturing, small module

Business commonly sited on commercial land

- 13 Retail trade
- 14 Restaurants & bars
- 15 Personal, rental, & repair services
- 16 Automotive repair services
- 17 Hotels & motels
- 18 Theaters & other retail amusements
- 19 Equipment rental
- 20 Wholesale trade –commercial
- 21 General commercial

Office–type business

- 22 Business & corporate administration
- 23 Finance, insurance, & real estate
- 24 Finance, insurance, & real estate, small office
- 25 Professional services
- 26 Business services
- 27 General office
- 28 Medical services

Other business

- 29 Schools & colleges
- 30 Libraries
- 31 Hospitals & related medical services
- 32 Museums, art galleries, & gardens
- 33 Outdoor recreation & amusements
- 34 Public administration
- 35 Churches
- 36 Other, nec

Agriculture

- 37 Agricultural production
- 38 Agriculture services

Retail

Retail stores and retail services are classified into 68 categories using detailed NAICS codes.

Due to small numbers involved, some categories were combined: e.g, “Luggage and leather goods” with “Clothing Accessories 44825”, and “Cafeterias and snack and nonalcoholic beverage bars beverage bars” with “Limited service restaurants”. Categories 67 and 68 break out subsets of full service and limited service restaurants that represent chain locations.

Database Editions

The database is published as an add-on to the Scan/US subscription in two editions, Business Summary/ Occupation and Business Type/Industry.

The Business Summary/Occupation edition includes the following two datalists:

- BusinessSummary
- EmployeesbyOccupation

The Business Type/Industry edition includes the following four datalists:

- BusinessbyIndustry(NAICS)
- BusinessbyIndustry(SIC)
- BusinessbyType
- Retail(NAICS)

Available on layers:

United States
States
MSAs
Places
Counties
County subdivisions
Census tracts
Census blockgroups
Scan/US microgrids
Zip codes
Zip3 codes

Data items making up each datalist are listed in Appendix B with counts for the state of California and for the United States as a whole.
